AUTOMATIC PAY STATIONS

*Model may vary due to customization options

Swyft Automatic Pay Stations give your customers the option to process their parking fees without the aid of a cashier by automatically calculating and displaying fees, accepting validations, payments in coins and bank notes.

Change can be provided in coins and dollar bills (optional), and provides customers with a receipt of their transaction. Both valet and self-parking customers can make payments using these Pay-on-Foot or Pay-in-Lane station.

FEATURES:

- Credit Card acceptance
- Bills acceptance
- Coins acceptance
- Change provider
- LCD graphic display
- Display dimensions (W/H) 4.67"x 3.52")
- LAN 10/100, TCP/IP, RS-232, GSM as optional communications standards
- Multiple language support
- -4F to 122F temperature range
- 3mm steel frame; 4mm steel door
